Forecast for Sunday 11 Dec 2022

Weather: Snow showers continuing over the North Highlands, mostly light and well scattered. A few snow showers affecting hills near to West Coast in the afternoon. Away from these areas it will be dry with sunny spells. There will be sun glare from the lying snow.

Chance of cloud-free hill tops above 800m: 70%.

Low cloud and visibility: Away from shower the visibility will be very good with some cloud about 700m. Patches of very poor visibility as snow showers pass by with clouds briefly more extensive above 600m.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View
Note even with lighter winds on the tops it will still feel bitterly cold. Icy surfaces will make walking conditions difficult.

Forecast for Monday 12 Dec 2022
Weather: Most ranges will have a dry, bitterly cold day with sunny or clear periods. Still a few light snow flurries over hills of north Highlands and near to West Coast. There may be a few freezing fog patches in some glens, very slow to clear.

Maximum wind: Light winds at all levels, mainly southeasterly on the tops, speeds of only 5 to 10mph.

Chance of cloud-free hill tops above 800m: 90%

Low cloud and visibility: A few patches of very poor visibility at lower levels as any fog lifts from the glens. Otherwise excellent visibility once again with patchy cloud cover about 700 to 800m.

Temperature: **Glens:** Minus 9 Celsius rising to Minus 3 Celsius early in afternoon then plummeting once again.
At 800m: Minus 5 Celsius.
Freezing level: Sub-zero temperatures at all levels.
